

HEALTH GUARANTEE / CONDITION OF SALE

This puppy has been examined by a licensed veterinarian from Conestoga Animal Hospital, Ephrata, PA and is guaranteed to be in good health, to the best of our knowledge. The purchaser has a health guarantee extending to the close of business, 10 days from purchase date, in which to have the puppy checked by a licensed veterinarian. If the veterinarian determines that your puppy is clinically ill from an injury sustained or an illness likely to have been contracted on or before the date of purchase, you have the following options:

- 1) Return the puppy along with a letter from the examining veterinarian within 48 hours of diagnosis and receive a complete refund of the purchase price.
- 2) Return the puppy for a replacement puppy of equal value when available.
- 3) Retain the puppy and receive reimbursement of reasonable veterinary fees, not exceeding the purchase price. Treatment and fees will be reviewed on a case-by-case basis and in some cases, a second opinion may be required.

If within 30 days of purchase, a licensed veterinarian determines that your puppy has a congenital or hereditary defect that adversely affects the animal's health or will lead to death, you have the same options outlined in the above paragraph. The congenital or hereditary defect guarantee extends to one year of age if proven by the examining veterinarian to have been or will lead to the cause of the puppy's death. A letter or autopsy report from the examining veterinarian stating the puppy's condition or cause of death must be submitted to us within 48 hours of diagnosis or death. In no case shall the reimbursement exceed the purchase price of the dog.

The development of canine hip dysplasia is not dependent only upon genetics but environment (exercise and feeding) as well. Inappropriate exercise can harm immature developing joints and may affect their ultimate development. As we cannot control how you feed, exercise and care for your puppy, there is No GUARANTEE AGAINST DYSPLASIA.
